Living life to the full

Haversham House is committed to being at the forefront of providing quality dementia and residential care and to create a homely environment which respects the individual's independence, protects their status and enables them to achieve as full a life as possible.

We aim to accomplish this by the continual development all our staff to satisfy the requirements of the residents and their home.

Haversham House has an experienced Care Staff team who attend to the personal needs of each resident. Additionally, at Haversham House we believe that it is essential to offer our residents the opportunity to continue with their past hobbies and other leisure time activities, as well as having the chance to take part in new experiences. We have a dedicated Lifestyle and Activities team who are responsible for maintaining the quality of the leisure-time of all our residents,

either through group activities or through individual room visits for one-to-one activities.

As well as group activities such as outings, arts and crafts we have visits to Haversham from the outreach programme at the Potteries Museum; these visits have included local films, reminiscence and crafts such as decorating pottery plates.
